

Single camera system

*** Installed to one TV £149 inc ***

Medium resolution colour during the day, B&W at night, with a 3.6mm fixed iris lens. The camera incorporates dual glass technology that completely eliminates IR reflection in to the lens at night. Mounted in a robust aluminium housing, the camera is fitted with 18 IR LEDs that allow the camera to be used in total darkness up to a range of 10 metres. The camera is IP65 rated and can be fitted outdoors. The bracket supplied can move in 3 axis and also allows cable management.

- * 420TVL 1/4" Sony CCD
- * 3.6mm fixed iris lens
- * 10 metre IR range @ 90°
- * Dual glass technology
- * Size 85 x 57 x 55mm

TV must have a suitable input connection, either CVBS or SCART. Virtually all TVs will have one or the other.

* 12 months warranty and fitted by our engineers *
